IBT@Home

The IEB offers interested schools and parents access to an internationally benchmarked suite of assessments that can be written online, on request at home or school at any time by using a unique passcode.

IBT@Home is a suite of assessments in English, Mathematics and Science aimed at learners in Grades 3 to 10. IBT@Home uses content from ACER's International Benchmark Test Programme and provides diagnostic testing across a broad range of ability levels. The tests focus on deep conceptual understanding rather than simple recall of facts.

Easy to understand individual reports are provided on how the learner performed in comparison to learners internationally. The report includes subject-specific feedback on every question and a summary of strengths and areas for improvement.

Pricing (per learner per test): R158

If you are interested in enrolling for these assessments, please complete the registration form found at <https://forms.office.com/r/UHqkkH7khW>.
